

Course setter's statement

The Fin5 2023 sprint is run in the historical neighbourhood of the city centre of Tampere.

The runners will face varied terrains from park to old factory area and inner parts of an old industrial building complex.

Different running speed is needed during the whole course to solve the orienteering tasks. All courses have some demanding routechoice legs. Also the children's courses. Some forbidden areas are clarified with red and yellow forbidden area tape. The competitors are obligated to respect the map and this sensitive terrain. Remember to cross the forbidden roads correctly between the traffic cones.

We wish everybody an enjoyable and challenging race!

Course setters Severin Howald and Arto Itkonen (TP)
